Convertible Unfold

In order to maintain an optimal humidity level, a dehumidifier was installed in the bathroom.

It is programmed in automatic mode.

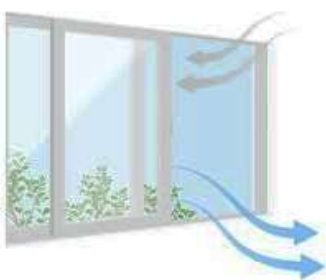

If, however, the noise inconveniences you at night, press "Power" to stop him.

Leave the bathroom door open when you're away.

The device will do this for the entire studio especially if you're hanging out laundry.

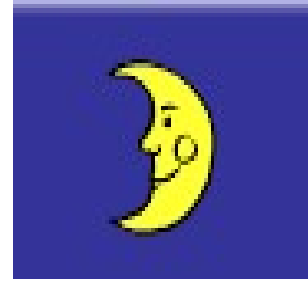

Laissez
la porte
ouverte

Remember to air out the bathroom after the shower and more generally the studio.

In order to minimize the effect of condensation and keep the heat in, remember to close the curtains and shutters at night.

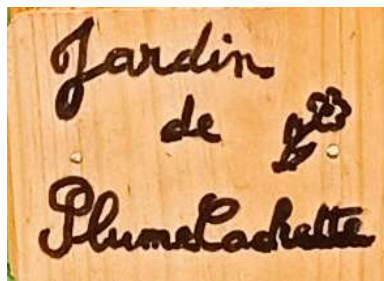

The duvet is nice and warm
Don't hesitate to lower heating at night.

In summer, remember to close the curtains and shutters to keep the cool.

Plumecachette is also a 100 m² garden that is entirely reserved for you.

A few steps and presto!

You have access to a space to read, relax, listen to the singing of the birds while admiring the Belledonne range, have breakfast in the sun or a meal that you have prepared on the barbecue.

Rummage through the hut, you will find everything you need to have a good time.
